

## Apprentice Community Connectors

*“Throughout the Community Builder project I have had the opportunity to learn great amounts and to take part in initiatives that address the needs of the community. Starting back in October, I have developed my skills and applied them to several Community Builder projects, such as the Winter Warmers pop-up shop. This was a bold move to get out into the community and hand out aid in the form of warm clothes and bedding, considered a rousing success; it surely is a sign of things to come.*

*I have also taken part in the Sainsbury’s Food Drive, which brought all members of the community together to provide help to the many food banks around Tendring. The project would not have been possible without the astonishing support of the community. Being able to take part in these projects and bearing witness to the many stories of the community members we help has been both enlightening and sobering. The Community Builder project is something I’m proud to be a part of and I feel it has helped me to grow as a person.”*
